भारत निर्वाचन आयोग / 6933
Election Commission of India

Dated: 20.08.2026

Dear Chief Electoral Officer,

As you are aware, the Election Commission of India's Electoral Literacy Clubs (ELCs) were launched in 2018 as a part of SVEEP program aimed at familiarising students and young citizens with democratic values, the electoral process, and the role and functioning of the Election Commission of India.

The information and communication ecosystem has, however, changed significantly since then. With young citizens increasingly engaging with information through digital platforms, there is a need to move towards continuous, structured, experiential and digitally-enabled electoral learning. It is in this context, that the Electoral Literacy Club (ELC) Program is now being reimagined as "ELC 2.0" - a modern framework to establish ELCs across schools, colleges and universities as active, year-round platforms for democratic and electoral learning and engagement through a dedicated portal on ECI Website.

The Vision of ELC 2.0 is to build a deeply rooted democratic culture where every young citizen understands India's electoral system and the trust, transparency and integrity that underpin it; takes pride in India's democratic institutions; and participates enthusiastically, responsibly and meaningfully in democratic processes.

Its Mission is to strengthen democracy by establishing ELCs across every Assembly Constituency of the country as visible and digitally-enabled platforms for continuous learning; promoting factual and experiential understanding of the electoral process; instilling pride in India's democratic institutions and values; and empowering young citizens to become ambassadors of electoral awareness within their families, institutions and communities.

India's vast educational network - comprising nearly 15 lakh schools, 25 crore students and one crore teachers, along with 1,500 universities and 70,000 higher educational institutions - offers an unparalleled opportunity for democratic learning and creating a sustained connect with India's youth. To strengthen this connect, a series of conferences on Electoral Literacy Clubs (ELCs) are planned to be organised across various States, providing a platform for wider engagement with students, teachers, educational institutions and other stakeholders. To facilitate this vision, a dedicated ELC registration and onboarding portal (<https://www.eci.gov.in/electoral-literacy-club>) has been developed for eligible educational institutions, which will also be accessible through the ECINET App. A renewed Working Framework for ELC 2.0 may also be accessed through this link.

I would particularly value your kind attention in taking this concept of ELC 2.0 forward in your State/UT. With the active support of the CEO offices and educational institutions, ELC 2.0 can evolve into an enduring national movement for electoral literacy and democratic citizenship among India's youth.

With regards,

Yours sincerely,

(Ashish Goyal)

Shri Naveen Mahajan,
Chief Electoral Officer,
Rajasthan,
Jaipur.

Electoral Literacy Club 2.0 | Election Commission of India

The Election Commission of India is an autonomous constitutional authority responsible for administering election processes in India. The body administers elections to the Lok Sabha, Rajya Sabha, State Legislative Assemblies in the country and the offices of the President and Vice President of India.

Introducing ELC 2.0

Over the years, educational institutions have played a vital role in fostering democratic values. Building on this legacy, Electoral Literacy Club 2.0 (ELC 2.0) re-imagines ELCs as a more structured and digitally enabled youth democratic network, driven by institutional ownership, student leadership, and continuous learning. Through engaging ELC activities and hands-on demonstration sessions, ELC 2.0 equips young citizens with a deeper understanding of democratic and electoral processes, provides first-hand exposure to the conduct of elections, and inspires informed, active participation in democracy.

Vision: -

To build a deeply rooted democratic culture where every young citizen understands and values the trust, transparency, and integrity embedded in India's electoral system; takes pride in the world's largest democracy and its democratic institutions; and participates enthusiastically, responsibly, and meaningfully in the democratic process, thereby strengthening the resilience of Indian democracy for generations to come.

Mission: -

To establish and strengthen Electoral Literacy Clubs (ELCs) across schools, colleges, and universities at the State, District, Assembly Constituency (AC), and Polling Station levels as a vibrant platform for continuous electoral and democratic learning by:

- Promoting awareness of the trust, transparency, and integrity of India's electoral system through factual and experiential learning on the electoral process, including electoral roll preparation, polling, counting, the ECINET platform, and other initiatives of the Election Commission of India.
- Instilling pride in India's democratic institutions and the world's largest democracy by familiarizing young citizens with the milestones, achievements, and growing global recognition of Indian elections.
- Developing young citizens as ambassadors of electoral awareness who inspire informed and ethical democratic participation within their families, institutions, and communities.
- Building a future-ready generation of informed, responsible, and engaged citizens through a nationwide network of ELCs that reaches every educational institution and, ultimately, every polling station, creating a resilient democratic ecosystem equipped to address future challenges.

Working Framework: -

- The purpose of this Working Framework is to provide a uniform institutional framework for the establishment, governance and functioning of Electoral Literacy Clubs across the country, enabling them to serve as structured platforms for democratic learning, electoral awareness, youth engagement and civic participation.
